

Welcome to our speech perception study Thank you for your interest in participating. This short survey is part of an academic research project that explores how listeners perceive emotional intensity in synthetic English speech. 🎧 What will you do? You will listen to a series of short English audio clips, then indicate which ones sound more or less emotionally expressive. The survey takes approximately 5 minutes to complete. There are no correct or incorrect answers. We are interested in your personal impressions. 🛡️ Your rights and data Participation is completely voluntary You may stop the survey at any time without penalty All responses are anonymous and used only for academic research Data will be stored securely and not shared with third parties 🎧 Please wear headphones or ensure you are in a quiet environment 📖 Instructions This survey aims to evaluate the emotional intensity of synthetic speech For each question, please listen to the three audio samples labeled A, B, and C, and indicate: • Which one expresses the most intense emotion • Which one expresses the least intense emotion All three audios share the same verbal content Please base your answers only on the perceived emotional intensity, not on the spoken content You must select different answers for the most and the least intense emotions ✓ Consent By typing “agree” below, you confirm that: You have read and understood the information above You voluntarily agree to take part in this study 13 ⓘ
